## EX-CEL Edge PVC Sheets

EX-CEL Edge PVC Sheets deliver visual Impact, providing the appearance of a frame, without the need for a frame. Save time and money and ensure the images you print look their best. Co-extruded in white/black, and white/black/white, so you won't need to flood coat these rigid PVC sheets. Printable on both sides allows you to reduce inventory levels, because you'll no longer need white and black PVC sheets. Eliminates need for expensive, machine-slowng white ink on flatbed presses. Ideal for retail signage, POP displays, presentation boards, plastic signs and other printable PVC projects.
